Bauter, Mr. Malone's very average Bas-setlaw colt, won the Mound City Derby at Kinioch yesterday Mr. Street's Brush By was second, half a length away. The same owner's Birch Broom, the favorite, was third, two lengths back.

he Street entry was favorite at 6 to 6. Banter was well played at 9 to 2. Deutsch-land set the pace, followed by Birch Broom and Brush By. Eanter laid nicely on the Singleton was choking Birch Bro iq fifth place. Action and Chamblee whipped

At the half mile Deutschland gave way, The half mile Dentschiand gave way. The field closed. Battlere then foolishly heid Brush By back. Singleton was breaking his hands wrapping up on Brush Broom. Helgeson was giving Banter a nice ride on the rall, taking care of him and saving all possible ground.

At the three-eighths pole Brush By made her move on the culside. So did Banter on the limide. Birch Broom was still under heavy restraint. Chamblee then began to close up fast. A little of Irwin's posting in the saddle tired him.

Banter and Brush By hooked up a quarter from home and had it out through the stretch. Banter was on the ouiside. Battiste rough-rote Heigeson all he could, but the Makhne colt was best. He drew off and won by half a length in good time.

Singleton let Birch Broom canter into third place. This filly is known to be best of the Street lot. She was not extended at any part of it. Doctor Street evidently fooled the race away by had management. He could have won with either filly. He probably thought he would win with Brush By and cover Birch Broom's form up.

Had Battliste sent Brush By along at the half mile ground she probably would have won casily. Had Singleton ever let go of Birch Breom at any time, she would probably have won. The race can be thrown out for all except the winner, Deutschland and Signaund.

As a result of his poor system. Monos got left in the gate in the second race. He was best—as it was run. Ben Lear, all alive, was off in front, and managed to last long enough to heat El Rey.

The fifth race was a foke as to form. Finitisek Edgardo and W. B. Gates all ran wristched races last lime out. Scortic and Sarato ran good ones. Yesterday Flintlock, Gates and Edgardo showed sudden and vast improvement and finished in the money. Sambo ran a saddle horse race; Scortic's effort was not much better. San Francisco, April 26.—Another accident that may result fatally occurred at Oakland to-day. In the two-mile race when the horses had gone around once, Learoyd, when opposite the grand stand, stumbled and fell. Watson was thrown heavily to the ground and when he could arise was struck by the flying hoofs of another horse. He was picked up in an unconscious condition, suffering from a fractured skull. The attending surgeon expressed little hope for his recovery. Unexpectedly the injuries to Jockey Earl, who was hurt yesterday, proved fatal. The boy lapsed into unconsciousness and diel last night from concusion of the brain. The performance of Dr. Boyie was the feature. He gave away much weight and displayed great gameness, and took the mile handicap by a noze from Eonic. The weather was fast. Results:

Annual Battalion Review and Compe-

In the annual battalion review and competitive drill of the St. Louis University Cadets yesterday morning Privates McMorrow, Randome and Victor of Companies C. B and A carried off the honors in the order named, the first pair receiving gold medals for their work.

Inspector General William Wright of the United States Army reviewed the battalion and served as judge of the competitive drill with Edward Walsh, who was cadet Colonel last year. Three companies were in the review. Cold and rainy seather held down the attendance considerably.

Twelve diplomas were awarded to graduating cadets at the close of the drill, Captains Duenwald, Cibbulka and Herbers, First Lieutenants Murphy, Lashly and Summerbach, Second Lieutenants Drew and Malachete. Adjutant Donnewald, Major Pollman and Lieutenant Colonel Fleming being the recipients.

BROWNS AND WHITE SOX WILL CLOSE FIRST SERIES TO-DAY.

"Wee Willie" Sudhoff to He In Box for St. Louis Against Flaherty With the Chicago Team.

The wet condition of the grounds at Shortsman's Park prevented vesterday's game between the Browns and White Sox.

Last night, Manager McAleer had the groundleeper and a corps of laborers out with sponses and all other available receptables to drain the grounds, and by 80 clock not a wet spot remainer on the lot.

Unless Forecaster Hyatt goes back on his word to-day's weather will be clear. With this condition prevailing, the Browns and White Sox will tie up for the last game of the series.

the series.

McAleer is not a bit downcast over the two defeats of his pets, and looks for a victory to-day. He will very probably send "Wee Willie" to the firing line, as rowell is suffering from a slight cold. Sudhoff is always good at this season of the year, and the Browns will probably register their first victory of the 186 campaign this afterneon.

first victory of the 186 campaign this afternoon.

McAleer, in speaking of the team's two
downfalls in their tilts with the White Sox,
anys that the playing of his team in these
two games cannot be taken as a marker of
what his team will do when they get going.
The line-up of the teams to-day is as follows:

Jimmy Callahan says that he is going to
do everything in his power to make it
three straights. Jimmy McAleer will do
everything in his power to win to-day, as
he does not want the "Water Bugs" to go
back to Chicago with all the games packed
in their valies.

he does not want the back to Chicago with all the games packed in their value.

Although yesterday's weather was more conductive to attracting a crowd to a marked-down umbreila sale than to a baseball park, a goodly number of the fatthful journeyed our to the park in hopes of seeing a game.

Burkett and the rest of the Browns, bent on being in the best possible condition for to-day's fray, spent same little time running about on the promenade back of the left-field bleachers, which was the only suitable place in the park.

CHAS. A. DUFF'S PELVIC METHODS

AFTER ALL OTHER DOCTORS' TREATMENTS HAVE FAILED.

MY METHODS

Are sure and never full to cure, and I have demonstrated the fact to not only thousands of my patients, but to the medical profession, from which they have received the highest indorsement.

A SURE CURE

Is what I will give you beyond a doubt if your case is curable; if not, I will not accept your case is curable; if not, I will not accept your money, and promire to do anything for you. The certainty of my systems of treatment has been catablished by their absolute reliability in the many thousands of cases I have cured, some of them very severe, and had even been pronounced incurable by specialists. Having a thorough knowledge of the diseases I treat I am able to decide in an instant whether you are within reach of medical science, and if not there is no amount of money that will induce me to hold out any hopes to you, for I preserve my professional reputation only by being careful to promise no more than I can perform.

UNSUCCESSFUL TREATMENT.

There is scarcely a man affilted with Stricture. Varicoccle, Blood Poison, Piles, Rupture, Hydrocele, or even the most common contagious disease, who has not been unsuccessfully treated, and affier spending a great amount of money and time, is in a worse condition than before treatment. A great many men come to me affected with one or more of these Pelvic diseases, seriously complicated with symptoms that indicate physical and mental weakness, and tell me that they have aried every known remedy and different doctors without receiving any benefit. Nothing better than success can distinguish the skill and ability of a competent, reliable specialist, from the fallures made by doctors in general practice, and the self-styled specialist who never cured a man and relies upon experiments.

PROFESSIONAL EXCELLENCE.

I ask no one to take my treatment until I have convinced him that I am a physician who has knowledge that required years of study and practice to acquire and that I have thoroughly mastered my profession by gaining every possible advantage in practicing in the best hospitals of the world. My diploms from the leading medical institutions of this and foreign countries assure those who deal with me that my days of experimenting are over, and that my professional services are not only a boon to men, but are worth a thousand times what I charge for a cure.

Special Notice—I accept only curable

Special Notice.—I accept only curable cases, and all my pitients receive a written contract, binding me to effect a permanent cure or refund money. To insure those who deal with mengalish the frauds practiced by qunck doctors and medical companies, I have deposited \$1,000,000 in a trust company, to secure any patient holding my contract and promise that I cannot faight. CONSULTATION FREE.

I charge nothing for consultation either by mail or in person, and every man suffering from any of the diseases I treat is at liberty to call or write, when he will receive courieous attention. Those living at a distance are requested to write, giving away to the courieous attention. Those living at a distance are requested to write, giving away to the courieous attention and origin of the relisease, and particular pains will be taken in promptly and privately anawering. Every one who writes to me may feel assured that they will receive no mail from me except in answer to theirs, which will be personal, and in a plain, sealed savelope, as I positively do not send out question bianks and second class mall matter which characterizes the many unreliable medical institutions. My treatpent is administered by mail with the same success I make at my office, and my charges are always so reasonable as to be within reach of every one. Do not treat classwhere until you have investigated my methods and terms. Office, & a. m. to 8 p. m. Sundays, 9 to 1. Address or call on

STRICTURE, VARICOCELE, BLOOD POISON, PILES, RUPTURE, HYDROCELE

NERVOUS DEGLINE

Also All Chronic Diseases of the

Kidneys, Bladder and Prostate Gland ARE MY SPECIALTY.

CHAS. A. DUFF, M. D. DANGEROUS PELVIC DISEASES AND THEIR CERTAIN CURE.

PILES Or Hemorrholds are small vascular tumors situated at the lower opening of the bowel or rectum, and they have a most degrading influence on the general health. I cure Piles without cutting, nor do I use any ligatures or carbolle acid injections, which treatment, has ruined many. My treatment is safe, painless and quick, causing no detention from business, and when you are dismissed by me you are cured for life.

RUPTURE

Properly termed Hernia, is an affection in the region of the Peivic ayard in and is an excape or protrusion of the bowel from the lower part of the ardominal cavity. The tendency of Rupture is always progressive, and the symptoms are usually so slight as not to warn the afflicted, even though he be in imminent danger. Rupture frequently results in strangulation and death. Trusses should not be worn, as they only aggravate the trouble.

I have the only sure, safe method for curing Rupture. Besides being absolutely reliable, it is painless and harmless. It makes no difference how had your Rupture is, or how many times you have been treated, I can cure you, and will guarantee entire satisfaction.

HYDROCELE is an accumulation of serous fluid in the scrutum, or bag, and involves the cords to which the testicles are suspended and deprives the sexual organs of all vitality. It results from injury and is sometimes difficult to distinguish from Rupture or Varicocele. The remedy I use for curing Hydrocele completely obliterates the tumor at once, and by the us, of a preparation for a few days not a sign or symptom of the disease ever reappears.

VARICOCELE

Is a Petvic disease and is simply veins surrounding the spermatic cerd filled with curdied or stagnant blood similar to varicose veins occurring in any other part of the body. This overflow and clotted accumulation is caused by undue excitement and weakness of the appropriate or ganglionic nerves that regulate the supply of blood in any organism.

Every main afflicted with Varicocele of long standing knows that it has blighted his life, and that he has made a great mistake in not having himself cured. The disease not only endangers by complication every organ in the same region, but by sympathetic irritation destroys the nervous system and renders a man a complete wreck, physically, mentally and sexually.

sexually.

My treatment is the result of experiments in a German hospital. There is no operation about my radical cure for Varicoccie, neither any pain or detention from business. My procedure consists of acupuncture, by which means the staffant blood is transuded into the sellular tissue and finally ejected through the pores of the skin in the same mariner as all other wanter matter is thrown off. The ganglionic nerves are restored to their functional ferce by the administration of a tenic, and a complete cure is possible in every case.

BLOOD POISON Is a disease that infects the blood. It is both hereditary and contagious: the former may appear at birth of any time thereafter! the latter manifests by stages known as primary, secondary and tertiary. It is needless to explain to its victim the course of this disease, as he realizes from its monstrous grasp more than could ever be told. Such evidences as ulcern of the mucous membrane in the mouth and throat, sores on all parts of the body, aching of the bones, spots and all discolorations of the skin signify decay and premature death.

My treatment for Blood Poison is a composition that completely reorganizes the blood corpuscies by which means every particle of infectious mutter is eliminated. This remely for Blood Poison is the result of many years of experimentation, and has been thoroughly tested in the most severe cases, and has never failed to exterminate the germ of disease so that a sign never reappears. Under my system of treatment it is utterly impossible for poison to remain in the blood, and purity and health are the result in every case. My Serum-Toxin treatment is by both subintaneous and internal administration and removes all manifestation of the disease soon after beginning.

STRICTURE Of the urethra is a very annoying disease of the Pelvis, and is important because of its harmful effects to the entire genito-urrary system. The most common forms of Stricture are organic, spasmodic and congestive, which variation accounts for the fallure of about 90 per cent of those who claim to cure Stricture.

I treat each case separately, first satisfying myself as to the exact condition by careful examination and inquiry. Stricture in any stage and form is not difficult to cure, and by my method of irrigation and divestion I am able to cure the most severe cares in one month. I do not cut or dilate with bougles, and when I have distainsed a case the canal is sound, liealthy and perfectly natural.

NERVOUS DECLINE

The nerve centers and nerves supply and contribute all the force and activity that the great human structure or any part thereof possesses. The nerve centers are the reservoirs of force and a tendency to decay of any of the great centers of motion distribute disease to the nerve filaments in that region and an organic disease is bound to result. All nervous disease impair the general health; therefore they should have immediate attention and be treated by a competent physician.

In treating Pelvic diseases, from which nearty all nervous disease originate. I have purificular advantages over other physicians because I have a thorough knowledge of the seat and cause of the disease, which is always necessary to insura success in treating any affliction. My success is due to experience and research from the entire world of medical science.

The beginning of baldness is dandruff. Dandruff is a disease and can be cured.

Cure the disease that causes dandruff,

And the dandruff will disappear for good. Use only some old established remedy. We know one tested for more than 50 years-

Ayer's Hair Vigor It cures dandruff, checks falling, makes the hair grow, always restores color to gray hair.

"Ayer's Hair Vigor has cured my scalp of a bad case of dandruff.
It is a delightful preparation to use."
